The well proven Panel Pro makes it very easy to handle large sheets of material and cut them accurately.

**Features:**
- Motor designed specifically for the Panel Pro allowing for greater cutting accuracy.
- Ergonomically positioned operators handle
- Emergency stop switch
- Low voltage regulatory switch
- Dust port allowing for easy connection to a dust collector
- Lower and upper frame extensions adding additional support for full sized sheet processing (optional)
- Dust kit which includes a hose, rollers, dust tube and steel elbow (optional)

**Benefits:**
- One person sawing that is easy and accurate
- Cuts both vertically and horizontally
- Vertical design takes up less space in your shop
- Lightweight for portability to the job site
- Saw blade is completely enclosed and behind the panel when cutting
- Folding stand allows for easy storage taking up minimal space
- Ready to assemble in under 30 minutes
- Cuts a wide variety of material
